

Human Environmental Studies: Child Development Option

Bachelor of Science (BS)

Child Development Option

The study of child development encompasses the human life span from conception through adolescence and provides a foundation for your professional role in human service and education careers. Graduates work with children, families, and allied professionals in instructional, supervisory and support capacities.

Child Development students will...

- Interact one-on-one with qualified faculty in face-to-face and online classes.
- Acquire first-hand knowledge of child development in action through experiential learning with children and families in a variety of University and community settings.
- Apply child development knowledge to create healthy, supportive learning and care environments.
- Complete a Child Development Career Internship, the capstone of integrated study.
- Be prepared to collaborate with allied professionals in government, corporate, education, and social service settings.

Career Planning

Career preparation is part of the mission of Southeast. 100% of programs offer our students an internship, study-abroad program, clinical opportunity, student teaching or research internship.

Over 90% of Child Development graduates obtain employment or enroll in graduate study.

The Office of Career Services in Academic Hall 057 can provide students with professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.
