

## Healthcare Management: Informatics Option (Online)

### Bachelor of Science (BS)

# Informatics Option (Online)

The U.S. Bureau of Labor Statistics (BLS) reported wage and salary employment in the medical and health services management category is projected to grow 23 percent between 2012 and 2022. This growth rate is much faster than other industries. While many of these jobs are for practitioners, nurses, and allied health professionals, many others have duties that do not include hands-on patient care: for example, marketing, human resources, finance, and administration positions. This degree will help fulfill the need for non-clinical healthcare employees and is also appropriate for practitioners who desire to move up in clinical management or out of direct patient care into a support role.

The Informatics option focuses on the critical areas of data management and reporting. This program is oriented toward the end-user and the ability to report and analyze data.

#### Becoming Career Ready...

/ Qualified, award winning faculty interact with students in a small online class environment.

/ Informatics graduates are in high demand because of the intersections of two growing disciplines – technology and healthcare – combining skills such as systems management, coding and organizational analysis. Examples of job titles include health informatics specialist, clinical informatics specialist, medical and health service manager, clinical analyst and clinical informatics manager.

/ 100% of Southeast programs offer real-world experience. Informatics students earn this experience through participating in practicums and internships designed to provide practical experience in healthcare organizations.

/ The path to a successful career starts with you! You can maximize your career development by working closely with Career Services and Southeast faculty – they are here to help you connect your passions, interests, and skills to jobs and opportunities in the field. Career Services provides professional career counseling and coaching, resume critiques, practice interviews, job search strategies, career events, networking opportunities, and more.

#### Potential Internship and Employment Opportunities:

- Hospitals
- Insurance Companies
- Medical Office Practices
- Government Agencies
- Home Health Care
- Counseling Centers
- Medical Practice Management
- Risk Management
- Healthcare Technology Companies

#### About Our Online Programs

At Southeast, if a program is designated as an online degree, you can complete your degree anywhere, without ever having to come to one of our campuses. As a student in an online class, your faculty will be the same faculty who teach in our campus classrooms. Advising for online programs and other support services are all completed online by staff who specialize in serving distance students.

#### Special Options for Healthcare Management Majors

Southeast offers a Master of Science in Healthcare Management which may also be completed entirely online. Up to 12 hours of upper-level courses may be dual-transcribed toward the accelerated MS in Healthcare Management, giving you an early start.

Save time and money by talking with your advisor about applying for the accelerated master's program.

#### Transfer and Dual Credit Students

If you have dual credit or transfer credit, please visit our transfer course equivalencies guide at [semo.edu/transfercredit](http://semo.edu/transfercredit).
